PRODUCTION VERIFIED • OFFICIAL SPECIFICATION

Jan Kavach — Mobile Scheme Follow-up Module

Complete REST API Specification & Integration Guide

DOCUMENT VERSION	DATE	ENVIRONMENT	ADMIN STATUS
1.0.0 (Release)	October 16, 2026	Production (Live) & Local	100% Segregated & Untouched

1. Architecture & Segregation Overview

The **Mobile Scheme Follow-up Module** enables field service men to track registered beneficiaries, review their government scheme eligibilities, record scheme applications, identify document bottlenecks, and capture benefit disbursement.

> **CRITICAL ADMIN SAFETY GUARANTEE:** This module is completely independent from the web Admin Panel. Existing admin controllers, routes, views, models, and application workflows remain completely untouched. The mobile module utilizes its own dedicated service (`MobileFollowupService`), dedicated controller (`MobileFollowupController`), dedicated routes under `/api/mobile/user/followup/*` , and a dedicated database table (`mobile_scheme_followups`).

2. Server Environments & Base URLs

Environment	Mobile API Base URL	Status
Production (Live)	`https://jankavach.indevconsultancy.in/public/api/mobile/user`	**Live & Verified**
Local Development	`http://localhost/jan_kavach/public/api/mobile/user`	**Configured**

3. Authentication & Headers

All follow-up endpoints require Bearer Token authentication via the `mobile_auth` middleware. The token is obtained via the existing `POST /auth/login` endpoint.

> `POST` **`/api/mobile/user/auth/login`**

```
// Required Headers on all protected endpoints:
Authorization: Bearer <YOUR_MOBILE_AUTH_TOKEN>
Accept: application/json
Content-Type: application/json
```

4. Summary of API Endpoints

Method	Endpoint Path	Operational Purpose
GET	`/followup/dashboard`	Four primary summary cards, pending reason breakdown, and due buckets.
GET	`/followup/register`	Paginated follow-up records with search, status, and due filters.
GET	`/followup/beneficiaries/{id}`	Beneficiary profile, eligible schemes, document requirements & official URLs.
GET	`/followup/document-types`	Master dropdown list of 42 active document types for mobile forms.
GET	`/followup/schemes/{id}/documents`	Scheme-specific checklist of mandatory and optional required documents.
POST	`/followup/record`	Log follow-up action: Not Applied, Applied, Document Issue, or Complete.

5. Detailed Endpoint Specifications & Live Responses

5.1 Endpoint 1: Mobile Follow-up Dashboard

`GET` **`/api/mobile/user/followup/dashboard`**

Displays the 4 primary summary cards, pending breakdown, and follow-up schedules calculated dynamically from actual database records.

CARD 1: REGISTERED	CARD 2: TOTAL APPLIED	CARD 3: PENDING	CARD 4: COMPLETE
12	**1**	**17**	**1**
Unique registered beneficiaries.	Applications actually submitted.	Not applied yet, pending, or doc issue.	Benefit received with confirmation.

Live Server Response (200 OK)

```
{
  "success": true,
  "message": "Follow-up dashboard metrics fetched successfully.",
  "data": {
    "summary_cards": {
      "total_users_registered": 12,
      "total_applied": 1,
      "pending": 17,
      "complete": 1
    },
    "pending_breakdown": {
      "not_applied_yet": 15,
      "application_pending": 0,
      "document_issue": 2,
      "verification_pending": 0
    },
    "followup_due": {
      "overdue": 0,
      "today": 0,
      "upcoming": 3
    },
    "counting_rules": {
      "total_users_registered": "Count of unique active beneficiaries registered or assigned to the
authenticated Service Man.",
      "total_applied": "Count of scheme-tracking records where the application has actually been
submitted (status = Applied).",
      "pending": "Count of scheme-tracking records where the beneficiary has not applied yet,
application is pending, or a document issue exists.",
      "complete": "Count of scheme-tracking records where the beneficiary has received the scheme
benefit with recorded confirmation."
    }
  }
}
```

5.2 Endpoint 2: Follow-up Register

`GET` **`/api/mobile/user/followup/register?page=1&per_page=20`**

Returns a paginated list of all beneficiary-scheme follow-up records. Supports searching and status filtering.

Query Parameters

Parameter	Type	Default	Description
`page`	integer	1	Current page number.
`per_page`	integer	20	Records per page (1 to 100).
`status`	string	all	`Pending`, `Applied`, `Complete`, or `all`.
`search`	string	null	Searches beneficiary name, code, mobile, or scheme.
`pending_reason`	string	null	`Not applied yet`, `Document issue`, etc.
`due_filter`	string	all	`overdue`, `today`, `upcoming`, `all`.

Live Server Response (Excerpt)

```
{
  "success": true,
  "message": "Follow-up register records fetched successfully.",
  "data": {
    "items": [
      {
        "followup_id": null,
        "beneficiary": {
          "id": 235,
          "code": "JK-UP-2026-000125",
          "name": "API Test Person 1019",
          "mobile": "9876543215",
          "gender": "Male",
          "age": 36,
          "village": "API Test Village 1018"
        },
        "scheme": {
          "id": 87,
          "code": "JK-SCH-0087",
          "name": "National Family Benefit Scheme (Rashtriya Parivarik Labh Yojana)",
          "short_name": null,
          "application_mode": "Both",
          "source_url": null,
          "source_website": null,
          "portal_url": null
        },
        "eligibility_status": "Eligible",
        "status": "Pending",
        "pending_reason": "Not applied yet",
        "document_issue": null,
        "application_number": null,
        "submission_date": null,
        "benefit_received_date": null,
        "next_followup_date": null,
        "notes": null,
        "last_updated_by": null,
        "last_updated_at": null
      }
    ],
    "pagination": {
      "page": 1,
      "per_page": 20,
      "total_items": 17,
      "total_pages": 1
    }
  }
}
```

5.3 Endpoint 3: Beneficiary Follow-up Detail Profile

`GET` **`/api/mobile/user/followup/beneficiaries/{id}`**

Returns full demographic details, geography, confirmed eligible schemes, required documents checklist, and official scheme portal URLs.

Live Server Response (Beneficiary ID 61)

```
{
  "success": true,
  "message": "Beneficiary follow-up details fetched successfully.",
  "data": {
    "beneficiary": {
      "id": 61,
      "beneficiary_code": "JK-UP-2026-000001",
      "full_name": "Ramesh Kumar Sharma",
      "mobile_number": "9876543210",
      "gender": "Male",
      "date_of_birth": "1985-06-15",
      "age": 41,
      "marital_status": "Married",
      "social_category": "OBC",
      "religion": "Hindu",
      "monthly_income": "8500.00",
      "annual_income": "102000.00",
      "bpl_status": "Yes",
      "state_name": "Uttar Pradesh",
      "district_name": "Lucknow",
      "block_name": "Bakshi Ka Talab",
      "gp_name": "Kathwara",
      "village_name": "Kathwara"
    },
    "eligible_schemes": [
      {
        "scheme_id": 87,
        "scheme_code": "JK-SCH-0087",
        "scheme_name": "National Family Benefit Scheme (Rashtriya Parivarik Labh Yojana)",
        "short_name": null,
        "department_name": "Social Welfare Department",
        "application_mode": "Both",
        "benefit_summary": "One-time financial assistance of Rs. 30,000 to a BPL family upon the
death of the primary breadwinner.",
        "source_url": null,
        "source_website": null,
        "portal_url": null,
        "required_documents": [
          { "id": 1, "name": "Aadhaar Card", "code": "DOC_AADHAAR", "is_mandatory": true },
          { "id": 4, "name": "Income Certificate", "code": "DOC_INCOME", "is_mandatory": true },
          { "id": 5, "name": "BPL Ration Card", "code": "DOC_BPL_CARD", "is_mandatory": true },
          { "id": 8, "name": "Bank Passbook", "code": "DOC_BANK_PASSBOOK", "is_mandatory": true },
          { "id": 26, "name": "Death Certificate of Breadwinner", "code": "DOC_DEATH_CERT",
"is_mandatory": true }
        ],
        "followup": {
          "id": 1,
          "status": "Complete",
          "pending_reason": null,
          "document_issue": null,
          "application_number": null,
          "submission_date": null,
          "benefit_received_date": "2026-10-16",
          "next_followup_date": null,
          "notes": "Financial assistance of Rs. 30,000 credited to beneficiary Bank of Baroda
account via DBT.",
```

```
          "last_updated_at": "2026-10-16 10:44:03",
          "last_updated_by": "Piyush Pal"
        }
      }
    ]
  }
}
```

5.4 Endpoint 4: Master Document Types List

`GET` **/api/mobile/user/followup/document-types**

Returns all 42 master document types for rendering mobile selection dropdowns.

```
{
  "success": true,
  "message": "Document types fetched successfully.",
  "data": [
    { "id": 1, "document_name": "Aadhaar Card", "document_code": "DOC_AADHAAR", "category":
"Identity" },
    { "id": 2, "document_name": "Voter ID Card", "document_code": "DOC_VOTER_ID", "category":
"Identity" },
    { "id": 4, "document_name": "Income Certificate", "document_code": "DOC_INCOME", "category":
"Income" },
    { "id": 5, "document_name": "BPL Ration Card", "document_code": "DOC_BPL_CARD", "category":
"Income" },
    { "id": 8, "document_name": "Bank Passbook", "document_code": "DOC_BANK_PASSBOOK", "category":
"Financial" }
  ]
}
```

6. Endpoint 6: Record / Update Follow-up Progress

`POST` **`/api/mobile/user/followup/record`**

Handles the complete follow-up progression via an upsert mechanism. Tested and verified across all four operational scenarios:

Scenario A: Not Applied Yet

Beneficiary is eligible, but application has not yet been submitted. Sets a scheduled follow-up reminder.

Request Payload

```
{
  "beneficiary_id": 61,
  "scheme_id": 87,
  "status": "Pending",
  "pending_reason": "Not applied yet",
  "next_followup_date": "2026-10-25",
  "notes": "Informed beneficiary about Rashtriya Parivarik Labh
Yojana. Scheduled next visit."
}
```

Live Response (200 OK)

```
{
  "success": true,
  "message": "Follow-up record saved successfully.",
  "data": {
    "followup_id": 1,
    "beneficiary_id": 61,
    "scheme_id": 87,
    "status": "Pending",
    "pending_reason": "Not applied yet",
    "next_followup_date": "2026-10-25"
  }
}
```

Scenario B: Application Submitted (Applied)

Beneficiary has formally submitted the application at a CSC center or portal.

Request Payload	{
	"beneficiary_id": 61,
	"scheme_id": 87,
	"status": "Applied",
	"application_number": "NFBS-UP-2026-99214",
	"submission_date": "2026-10-16",
	"notes": "Application submitted at CSC Kathwara. Receipt copy handed over."
	}

Live Response (200 OK)	{
	"success": true,
	"message": "Follow-up record saved successfully.",
	"data": {
	"followup_id": 1,
	"beneficiary_id": 61,
	"scheme_id": 87,
	"status": "Applied",
	"application_number": "NFBS-UP-2026-99214",
	"submission_date": "2026-10-16"
	}
	}

Scenario C: Application Blocked by Document Issue

Application cannot proceed due to an expired, missing, or invalid document.

Request Payload	{
	"beneficiary_id": 61,
	"scheme_id": 87,
	"status": "Pending",
	"pending_reason": "Document issue",
	"document_type_id": 4,
	"issue_type": "Missing",
	"document_notes": "Income Certificate expired last month. Beneficiary applying for fresh certificate at Tehsil.",
	"next_followup_date": "2026-10-28",
	"notes": "Assisted beneficiary in filling Tehsil income declaration form."
	}

Live Response (200 OK)	{
	"success": true,
	"message": "Follow-up record saved successfully.",
	"data": {
	"followup_id": 1,
	"beneficiary_id": 61,
	"scheme_id": 87,
	"status": "Pending",
	"pending_reason": "Document issue",
	"document_issue": {
	"document_type_id": 4,
	"document_name": "Income Certificate",
	"issue_type": "Missing",
	"notes": "Income Certificate expired last month..."
	},
	"next_followup_date": "2026-10-28"
	}
	}

Scenario D: Scheme Benefit Received (Complete)

Benefit has arrived via DBT or physical distribution. Confirmed by service man.

Request Payload	{
	"beneficiary_id": 61,
	"scheme_id": 87,
	"status": "Complete",
	"benefit_received_date": "2026-10-16",
	"notes": "Financial assistance of Rs. 30,000 credited to beneficiary Bank of Baroda account via DBT."
	}

Live Response (200 OK)	{
	"success": true,
	"message": "Follow-up record saved successfully.",
	"data": {
	"followup_id": 1,
	"beneficiary_id": 61,
	"scheme_id": 87,
	"status": "Complete",
	"benefit_received_date": "2026-10-16",
	"notes": "Financial assistance of Rs. 30,000 credited to beneficiary Bank of Baroda account via DBT."
	}
	}

7. Dedicated Database Schema: `mobile_scheme_followups`

Created and active on both Local and Live production MySQL databases:

```
CREATE TABLE `mobile_scheme_followups` (
  `id` bigint(20) UNSIGNED NOT NULL AUTO_INCREMENT,
  `beneficiary_id` bigint(20) UNSIGNED NOT NULL,
  `scheme_id` bigint(20) UNSIGNED NOT NULL,
  `field_user_id` bigint(20) UNSIGNED NOT NULL,
  `status` enum('Pending','Applied','Complete') NOT NULL DEFAULT 'Pending',
  `pending_reason` enum('Not applied yet','Application pending','Document issue','Verification
pending') DEFAULT 'Not applied yet',
  `document_type_id` bigint(20) UNSIGNED DEFAULT NULL,
  `issue_type` varchar(50) DEFAULT NULL,
  `document_notes` text DEFAULT NULL,
  `application_number` varchar(100) DEFAULT NULL,
  `submission_date` date DEFAULT NULL,
  `benefit_received_date` date DEFAULT NULL,
  `next_followup_date` date DEFAULT NULL,
  `notes` text DEFAULT NULL,
  `created_by` bigint(20) UNSIGNED NOT NULL,
  `updated_by` bigint(20) UNSIGNED DEFAULT NULL,
  `created_at` timestamp NOT NULL DEFAULT current_timestamp(),
  `updated_at` timestamp NOT NULL DEFAULT current_timestamp() ON UPDATE current_timestamp(),
  PRIMARY KEY (`id`),
  UNIQUE KEY `uniq_beneficiary_scheme` (`beneficiary_id`, `scheme_id`),
  KEY `idx_status` (`status`),
  KEY `idx_pending_reason` (`pending_reason`),
  KEY `idx_next_followup` (`next_followup_date`),
  KEY `idx_field_user` (`field_user_id`)
) ENGINE=InnoDB DEFAULT CHARSET=utf8mb4 COLLATE=utf8mb4_unicode_ci;
```

8. HTTP Status Codes & Error Envelope

HTTP Status	Type	Description
`200 OK`	Success	Request executed and data returned or saved successfully.
`400 Bad Request`	Client Error	Validation failure (missing conditional fields, invalid dates, etc.).
`401 Unauthorized`	Auth Error	Missing, malformed, or expired Bearer token in request header.
`404 Not Found`	Missing Entity	Beneficiary ID or Scheme ID does not exist in the database.
`500 Server Error`	Fatal Error	Database or internal runtime exception.

> **Live Production Sign-off:** All endpoints documented herein have been deployed to `https://jankavach.indevconsultancy.in` and verified using Postman with real database state transitions.
